

# Hoover Happenings

Week of 1/6/25

# Ms. Williams

This week we worked on our math skills. We completed file folders. We also worked with our communication devices in class.

# Mrs. Wohlfeill

We played a new game this week to help us learn our vowel sounds quickly! It was really fun!

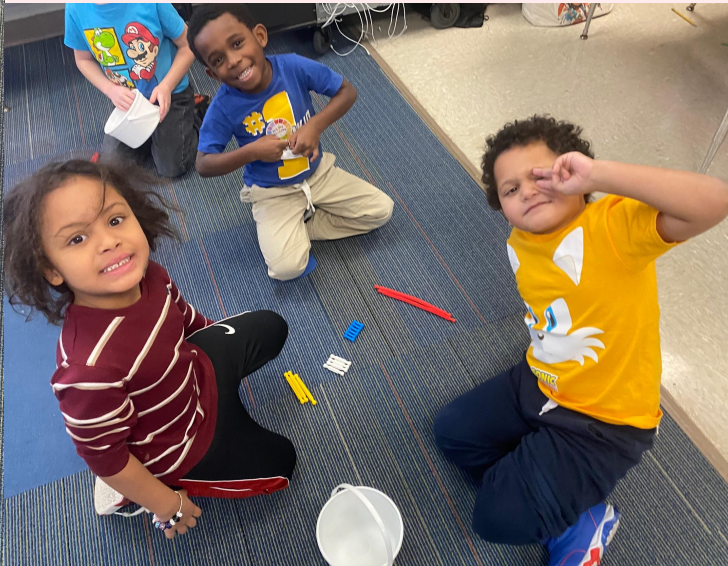

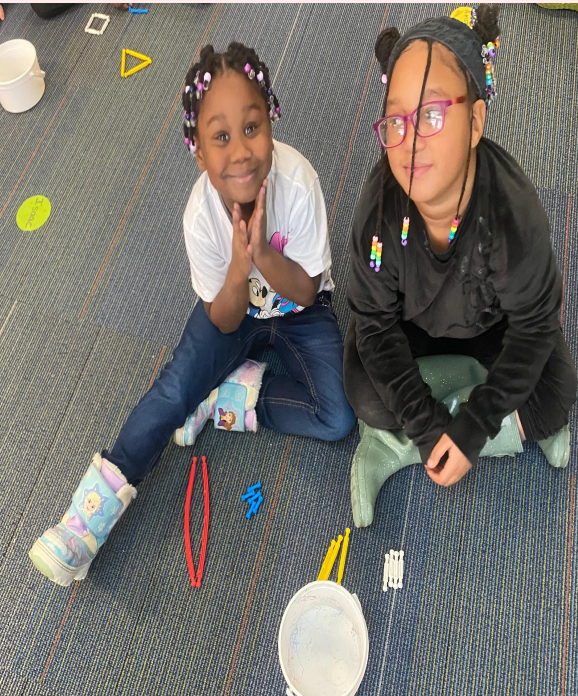

In math, we used non-standard units to help us measure the length of our feet. Then we compared our feet to others in the class!

# Mrs. Gorski

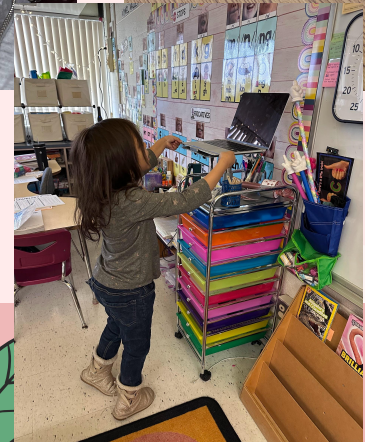

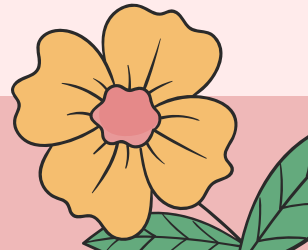

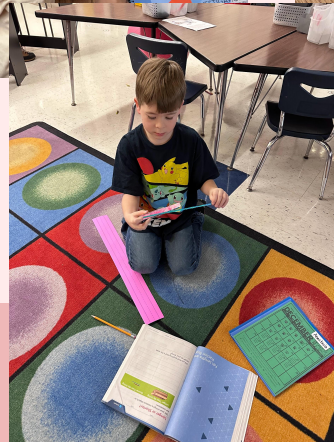

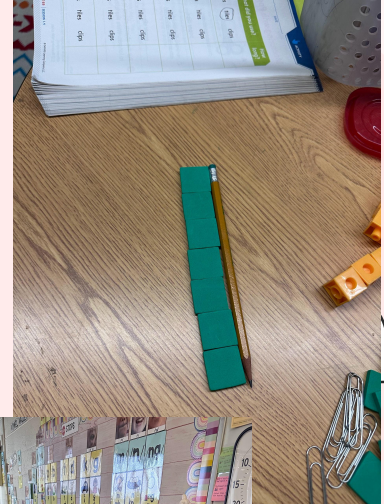

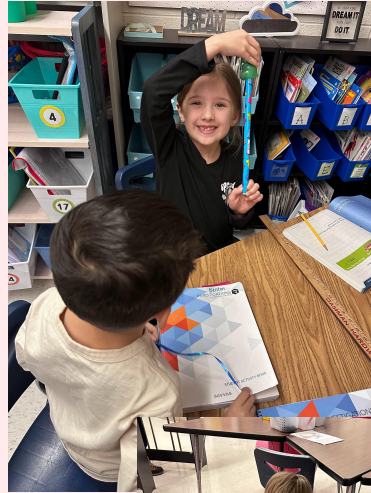

This week in Science, we began to explore our Kinex building pieces. We will be using these pieces and “blueprints” to build a ramp/slide, a swing and two spinning tops. All this construction will help us learn about the FORCES called push and pull. This is my favorite part of science and the kiddos LOVE it too.

# Mrs. Becker

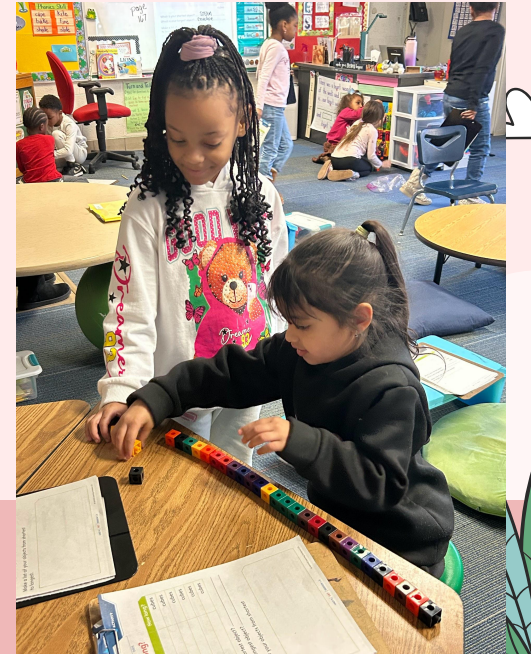

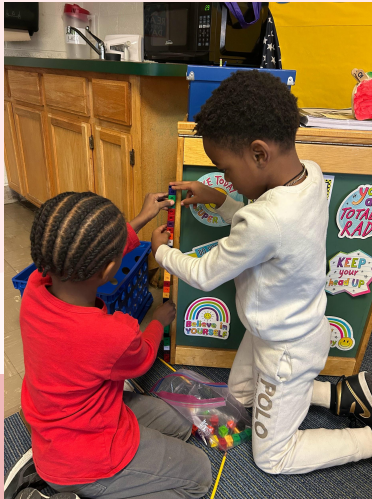

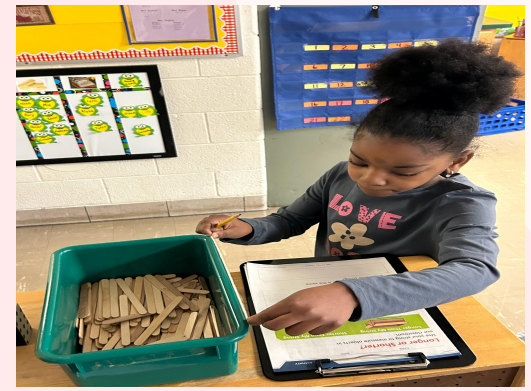

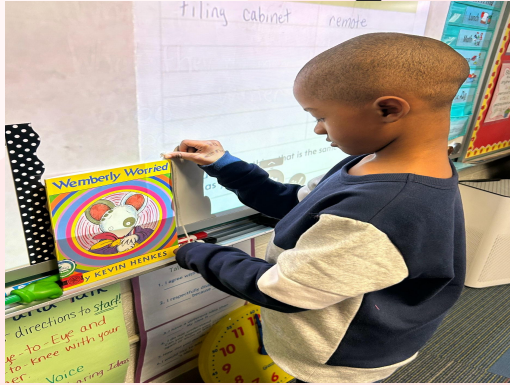

We are learning to measure length and time to the hour. Our class has had so much fun with this hands-on learning this week!

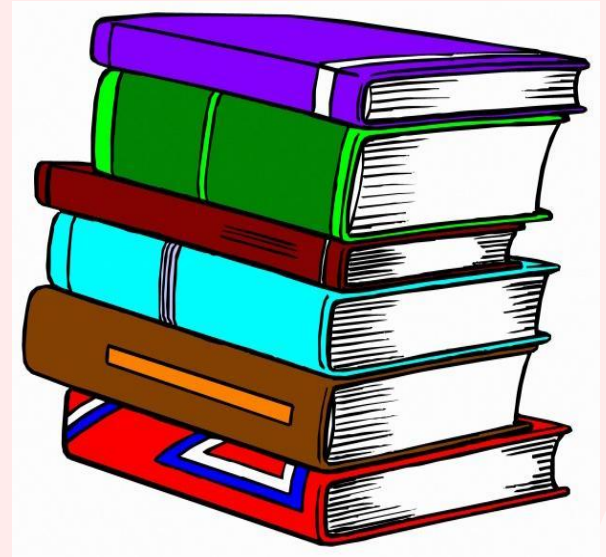

# Mrs. Hughes

Our class started our measurement unit in math this week! We worked with partners using different measuring tools to measure objects in our classroom!

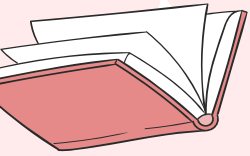

# Mrs. Yager

We jumped right back into learning in 2025!

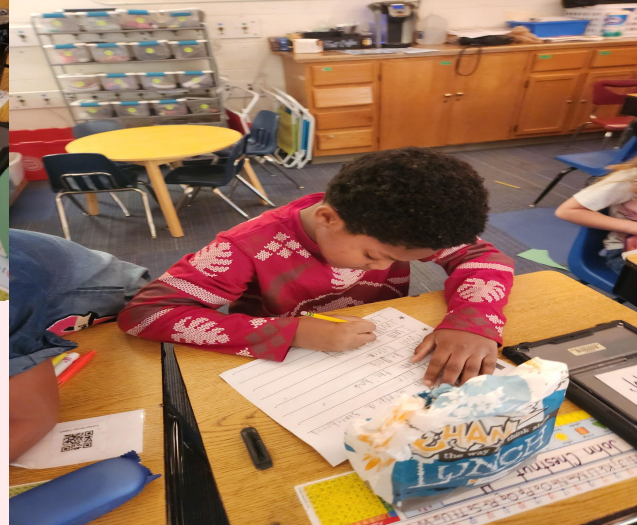

# Mrs. Beller

This Week we wrote  
our New Year's  
Resolutions for 2025!!

# Ms. Culver

We kicked off the new year with a field trip to Lansing to visit the State Capital and historical museum. This will support our social studies curriculum on Michigan.

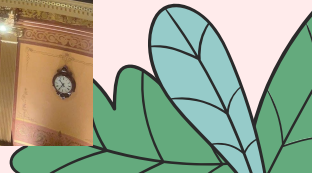

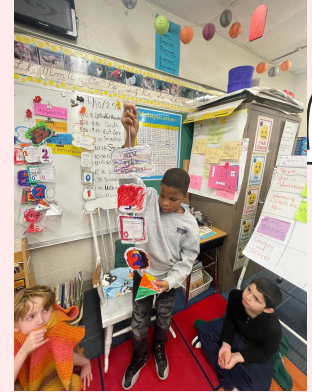

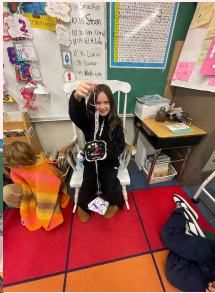

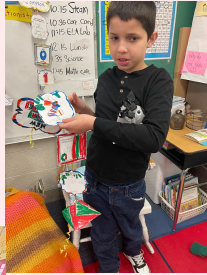

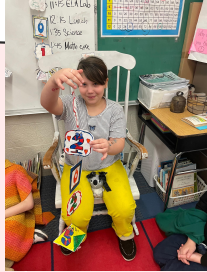

# Mrs. Suder

Our first week of the new year has been busy! We had our field trip to Lansing, made New Year's resolutions, started writing our informational weather books, received a special gift from Lamphere High School DECA students, and learned a new game during our morning meeting circle.

# Ms. Johnson

New Year New Me! We had fun with the challenge of making new goals for 2025!

# Mrs. Houston

We slowly got back into the swing of things this week. We started talking about goals we have for 2025, and the best parts of 2024. We recorded these on our New Year projects.

# Mr. LeMere

HAPPY NEW YEAR!!

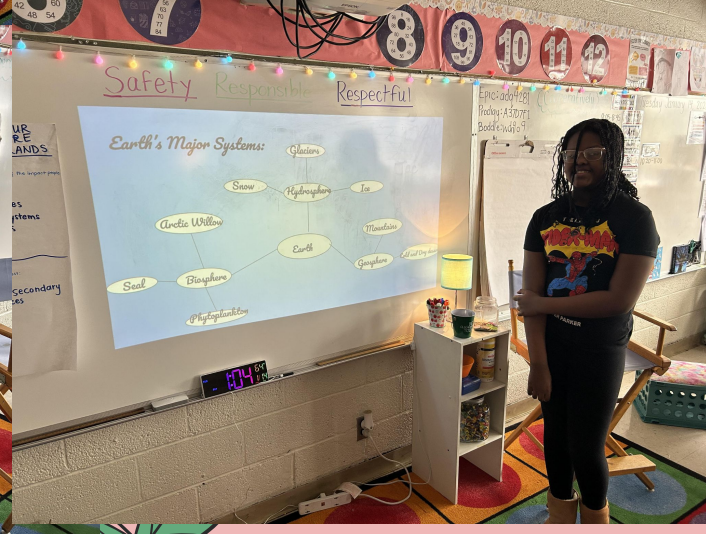

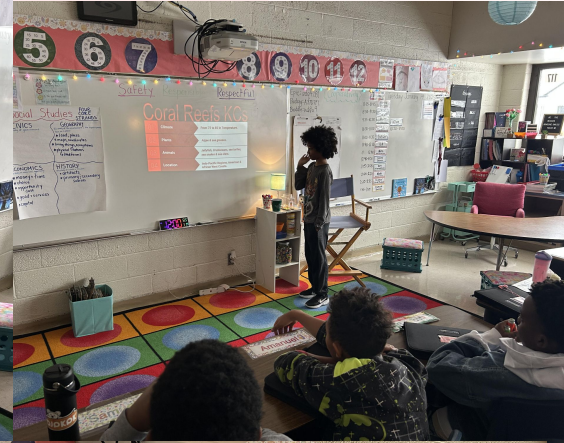

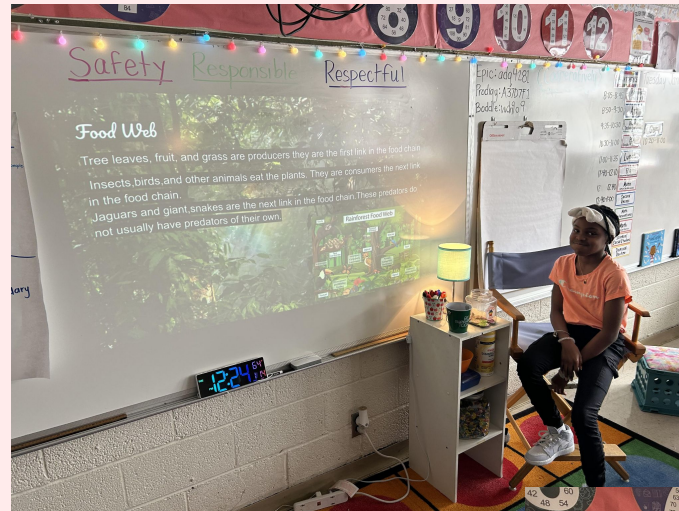

With the start of the new year this week was spectacular! Although recess has been indoors, we have been making the best of every moment throughout our days.

# Mrs. Gaedcke

This week we began finalizing and presenting our Ecosystems projects! Although some of us were nervous to get up and present in front of the class, it was amazing to see everyone's hard work! Please ask your child about their ecosystem!

# Room 127

This week we began reading rotations. We read, built words, listened to books and practiced our Power Words! We are on our way to becoming strong readers!
