

# Hoover Happenings

For the week of

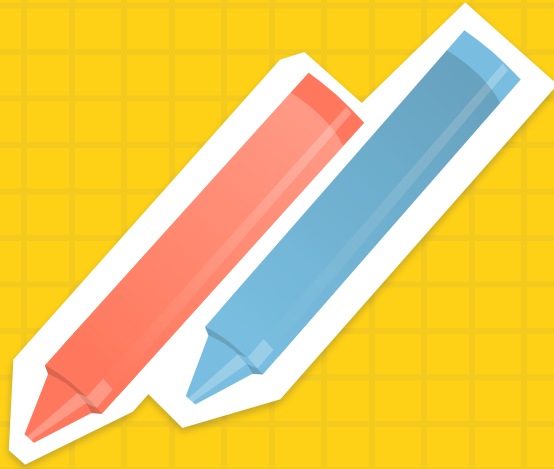

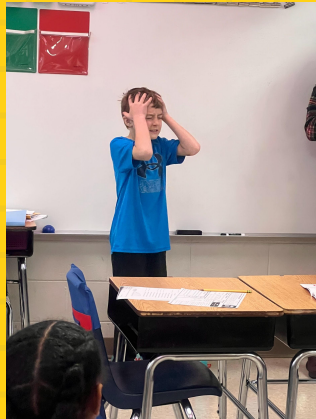

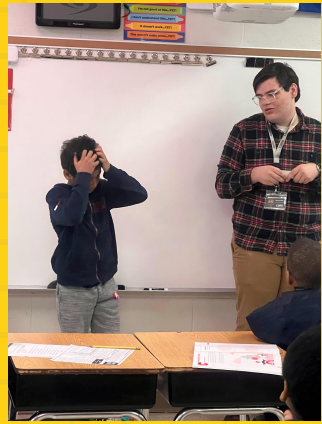

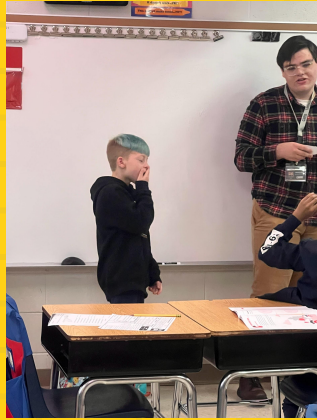

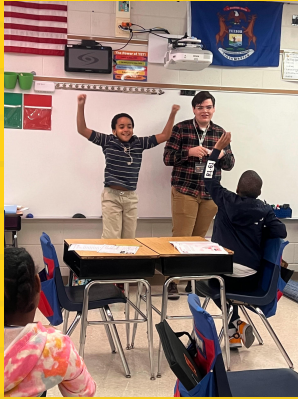

# Mrs. Suder's Third Grade Class!

We have been learning about communication in our Life Skills class. We were able to see how communication is done with and without words. We did some body language charades and the students did fantastic with figuring out what students were feeling just by their body language.

In Language Arts, we are finishing up our Fairytales. The students are getting really creative and are very excited to share their writing with others.

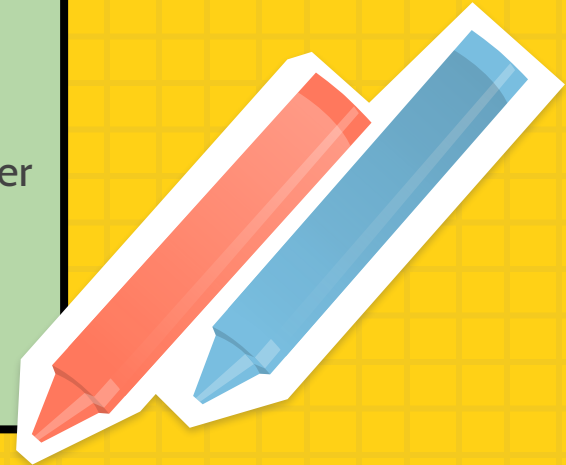

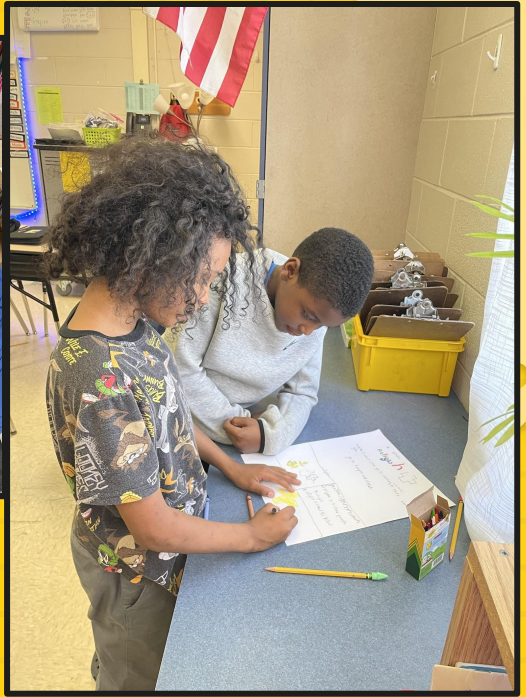

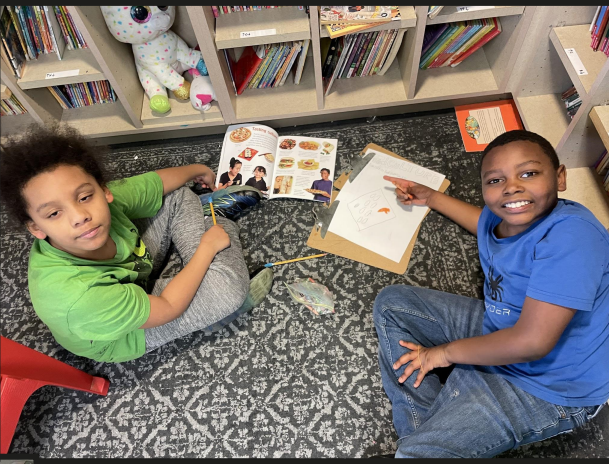

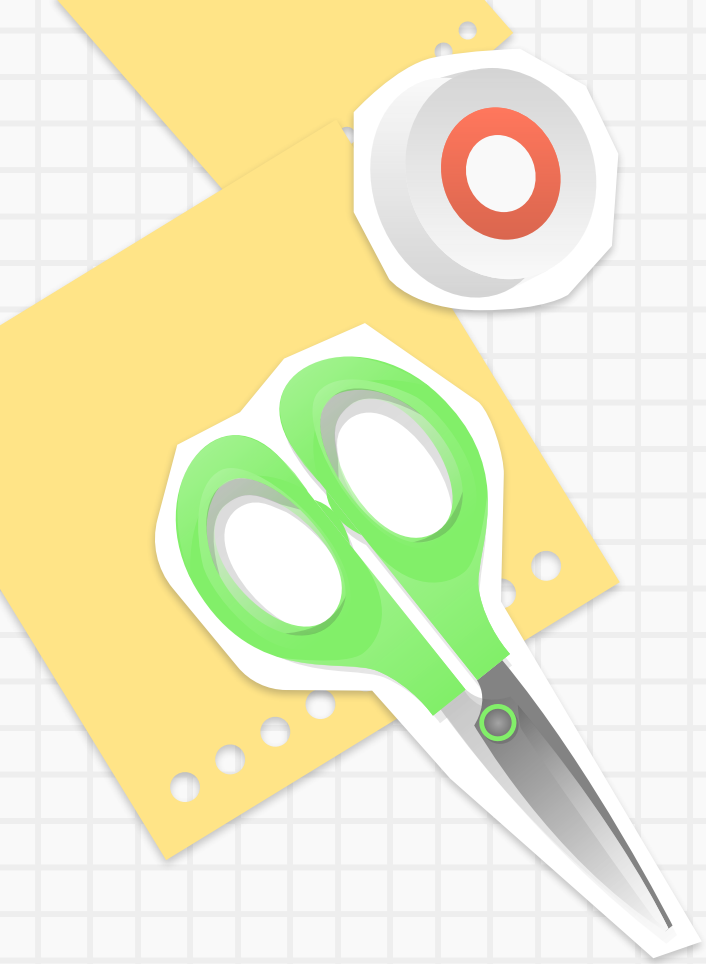

# Mrs. Parmelee's Third Grade Class

This week we finished our fairy tales in writing. Next week we are going to be publishing them so parents can see them at conferences, which are next Thursday, April 25. On Tuesday we did our M-STEP math test. Lots of kids thought the math test was easier because there wasn't so much reading and writing. As every week, we did Zearn and X-tra math to practice our math skills. We also made posters about culture and presented them to the class.

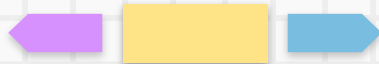

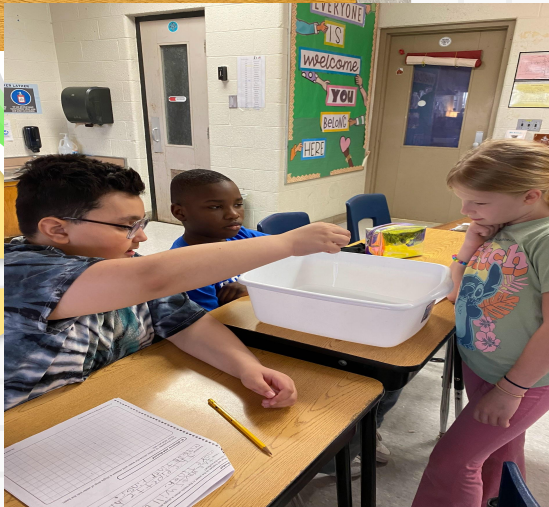

# Mrs. Houston's Fourth Grade Class

This week we've been busy practicing writing essays in preparation for the M-STEP. We are also enjoying our math centers to revise multiplying and dividing large numbers. Finally we are finishing our science unit all about waves!

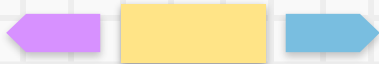

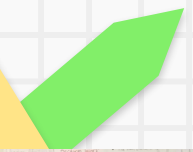

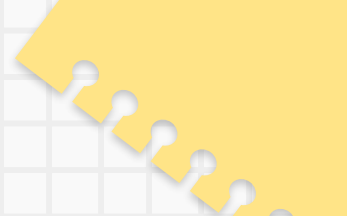

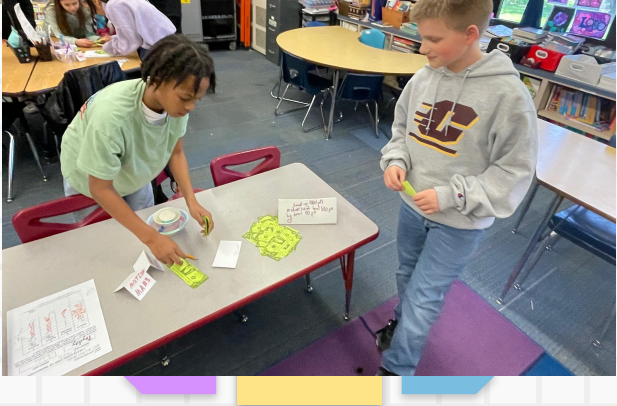

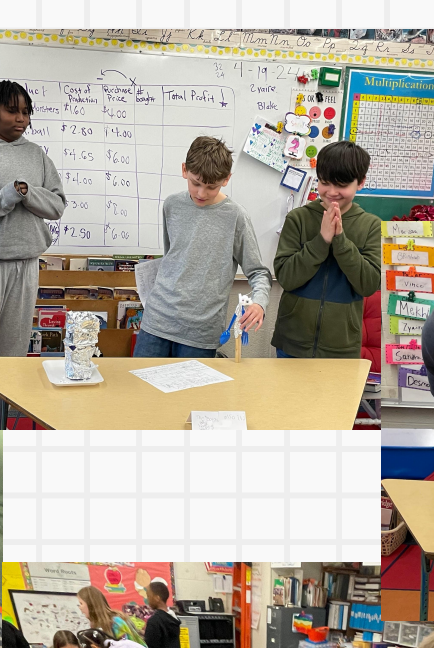

# **Ms. Johnson's Fourth Grade Class**

We wrapped up our economy unit with a real world application. Students got into “Companies” and made a product that they created a commercial about and put up for sale. The Company earning the most profit wins!

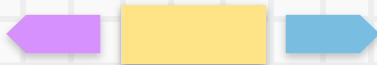

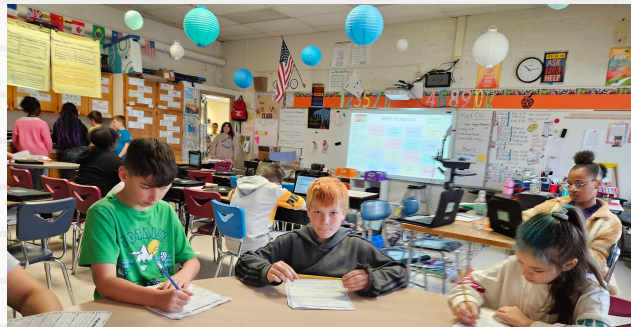

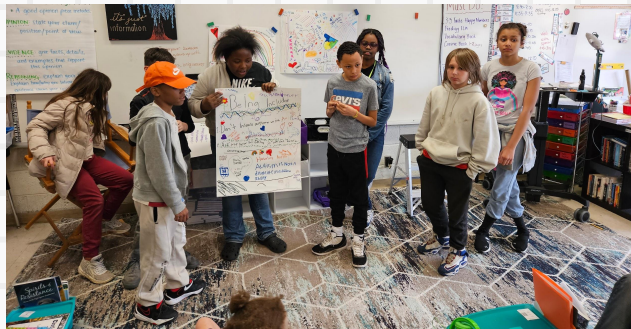

**Mr.  
LeMere's**

**Fifth Grade Class**

**We have completed our math and ELA MSTEP. We have Science and Social Studies left. We learned about inclusion and Autism with our peers and we're able to ask eye opening questions.**

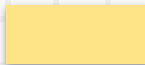

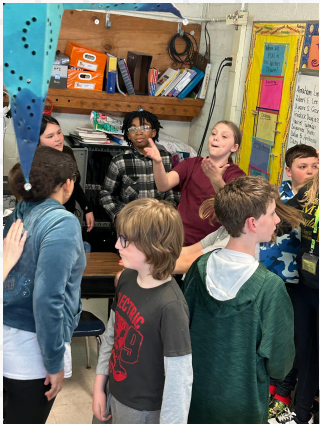

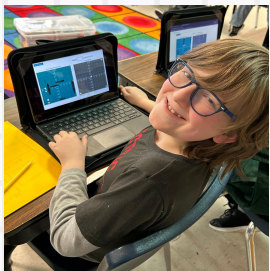

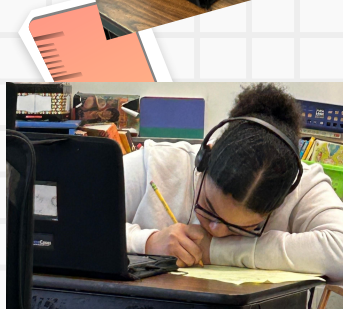

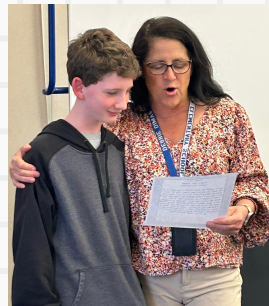

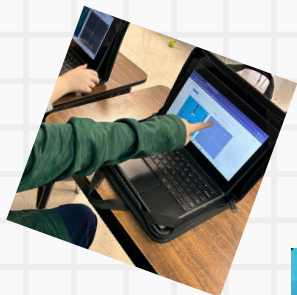

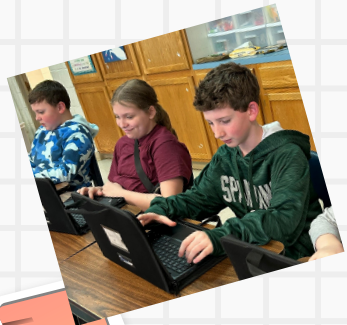

# Mrs. Bienstock's Fifth Grade Class

We be MSTEPPIN Y'ALL!  
We nailed ELA and Math and in between we had a little fun with life skills and learning how to communicate without saying a word! We also had a blast learning how to plot points in all four quadrants of the coordinate grid by playing online Battleship! That was a big hit! Congratulations to Sean Johnston for being named our latest Student of the Month!

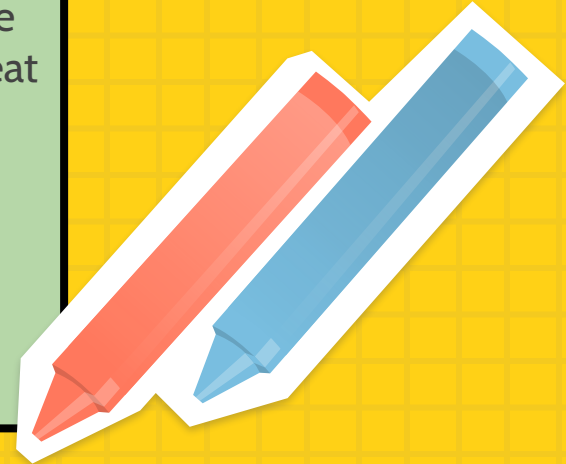

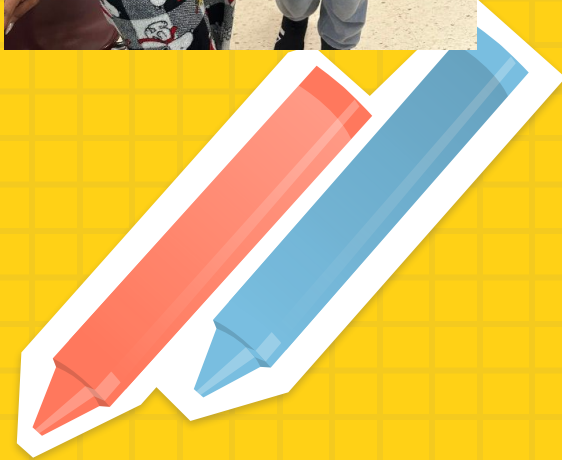

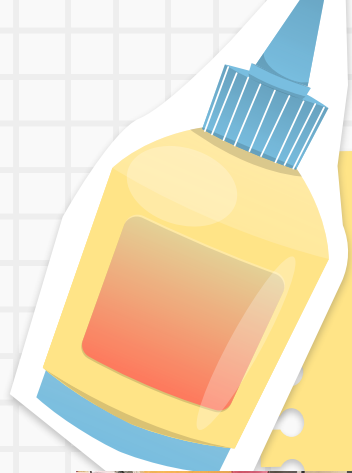

# Ms. Surratt's Class

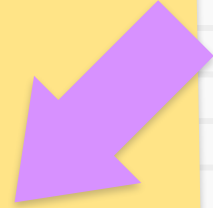

This week we went to the junior high on Thursday morning to make donuts with some of their students. We had a buddy and had a great time making new friends. On Friday, we made ice cream from scratch with another class. It only took a few ingredients and some shaking for 5 minutes til it was ready.

# Mrs. Torres Steam & Art Class!

Grades 3-5 have been busy exploring careers in Xello!
